Dear Mr. Horvath,

Your recent Semiannual Report (SAR) and Annual Compliance Certification (ACC) were received and examined for adequacy, along with the amendment sent via e-mail. In the SAR you indicated that there were no deviations from the permit requirements.

After reviewing these documents, I have determined that they adequately meet the reporting requirements of your permit. A review of the substance of the SAR also indicates that your facility was in compliance with the corresponding standards of your permit during the period. If you have questions concerning the document, please contact me at (865) 594-5567, or my supervisor Martie Carpenter at (865) 594 5566.

Sincerely,
Richard A. Smrz, Environmental Specialist 4
